THEY ASK, WE ANSWER

I set up my Google profile. Why isn't the phone ringing?

Check these five boxes first. Swipe through.

01 · MAIN CATEGORY

Pick the one thing you most want to be found for.

Choose the most specific category that fits. Electrician says more than Contractor.

02 · SERVICES

List every service you actually do.

Each on its own line, named the way your customers say it. Leave out the jobs you don't want.

03 · SERVICE AREA

Set the suburbs and towns you really cover.

Work from home? Google lets you hide your address and show your service area instead.

04 · HOURS

Get your hours right, holidays included.

There's a spot for public holiday hours. Nobody enjoys ringing a business that's shut.

05 · PHOTOS

Add photos of real jobs.

Your work and your ute, shot on your phone, say more than any stock photo.

WHY BOTHER

Google says customers are 2.7 times more likely to consider a business reputable if its profile is complete.
